1. Download and Install the "Cadence Download Manager"

Important notice, for a smooth installation process you need administrator privileges!

To perform Cadence software download and installation we use a utility called "Cadence Download Manager". For SPB 24.1 you need the latest version of the "Cadence Download Manager". Download it from:

https://my.hidrive.com/lnk/Jrsqp8H9U

Once the download is finished you can execute this file to run the installation of the "Cadence Download Manager".

Start the "Cadence Download Manager" from the Windows start menu: Start -> Cadence -> Download Manager

If this is the first time you start the "Cadence Download Manager" you need to provide your Cadence support account credentials. Fill in your support.cadence.com login details and click Sign in.

If you've no account at support.cadence.com yet, click on Create your account and follow the steps described in this document.

2. Cadence License Manager installation

The Cadence software is licenced by FlexLM software. If you plan to use a local license or need to install the license on a server, continue with this step. Only if the License Manager software pre-exist on an existing server, you can skip this step.

In previous step you started the "Cadence Download Manager", provided your login details and signed in.

Select "License Manager" and press on INSTALL.

Note at creation of this document version 22.01.0003 is displayed, this may have changed to a newer version.
